COMMENTS: SINCE AIR QUALITY IN EL DORADO COUNTY ALREADY EXCEEDS POLLUTION REQUIREMENTS, ADDING 9,000 MORE DAILY VEHICLE TRIPS WILL HAVE SIGNIFICANT IMPACT ON AIR QUALITY IN PROPOSED PROJECT AREA AND IF INDIAN TRIBE DEVELOPES LARGER FACILITY THEN EVEN GREATER IMPACT ON TRAFFIC AND OTHER SERVICES

Delbert Katz
4575 Hillwood Dr., Shingle Springs, CA 95682

Since air quality in El Dorado County already exceeds pollution requirements, adding 9,000 more daily vehicle trips will have significant impact on air quality in proposed project area and if Indian Tribe develops larger facility then even greater impact on traffic and other services.

Response:

The commenter believes the Interchange Project will have significant air quality impacts. Both the 2002 Final EIR and the Supplemental EIR analyze the potential air quality impacts of the Interchange Project and conclude that those impacts would be less-than-significant. 2002 Final EIR at Section 5.5; Supplemental EIR at Section 5.5.
